"Products Liability. Medical Malpractice. Federal Preemption. Off-Label Use of Medical Devices. Informed Consent. Hospital Standard of Care. An issue of first impression in Kentucky is whether the trial court properly dismissed the state products liability claims against the hospital on the basis of express federal preemption in circumstances involving the off-label use of a medical device. Another issue is the standard of care applicable to the hospital when a medical device is being used off-label. Did the Court of Appeals err when it determined that the hospital had a duty to inform the patient of the regulatory status of the device and its off-label use and the risks attendant thereto?"
